BACK DOOR

Business Is Barred.

Mayor McNamara Has Issued His Order

To Arrest Violators of Sunday Laws.

Strikers Will Not Return to Work Monday.

Barborton's Unknown May Meet Johnny Dennison.

(Special Correspondence.)

Barborton, May 12.—Mayor John McNamara proposes to make the saloon keepers live up to the law in reference to closing on Sundays and after 10 o'clock on week nights. The slot machines must also go.

Owners of slot machines have been notified to get rid of them at once, or else be arrested under the state law. Both marshals have been instructed to do everything in their power to keep the saloons closed Sundays and after the regular closing hours. Back door business on Sundays at many saloons eclipses that of week days. Arrests will follow if the law is not obeyed. Numerous complaints have been made about the Sunday back door business and Mayor McNamara considers it the best for the village to have the saloons closed. Every saloonist will be dealt with alike.

The report that the Stirling strike is liable to be settled by arbitration on Monday is without foundation. No more conferences have been held with Supt. Sneddon, and as yet no arbitrators have been elected. In fact, it is not known whether Mr. Sneddon will submit the matter to an arbitration board. It is believed he has made the last proposition.

The Republicans held a caucus last night in the Tracy Block to elect three delegates to attend the Congressional convention at Warren, May 11. Thos. Kelley was made chairman of the caucus. Messrs. F. J. Davies, Geo. Shaw and Oliver Sprankle were the successful men.

Mr. J. P. McCarthy's name was also placed in nomination. The three delegates elected will support Gen. Chas. Dick for renomination.

Read John McNamara's advertisement at top of page 2.

Mr. W. S. Hancock, assistant manager of the People's Telephone Company, closed contracts yesterday with the Turkey Foot club, Long Lake Park Co., and State Mills for telephones. The special lines will be built at once and will be connected with the Akron switch board. The switchboard was shipped Tuesday and is expected to arrive in Akron in a few days. It will take care of 1,700 phones. The Cuyahoga Falls system was put in operation this afternoon. The switch board was made to accommodate 100 subscribers, and already they have 98.

Billy Coleman is endeavoring to arrange a match between Tim Hoonan, the "unknown" prizefighter, employed at the Soda Ash works, and Johnny Dennison of Cleveland.

Mr. W. C. Eaton and wife and child are guests at the Inn. Mr. Eaton is a U. S. navy inspector. He is inspecting the boilers at the Stirling works.

Mr. Frank E. Kirby of Detroit, with the Detroit Dry Goods Co., was the guest of Mr. J. P. Sneddon yesterday.

Mr. W. S. Robertson is in Chicago.

Arbitrator Here.

Joseph Bishop of Columbus, secretary of the state Board of Arbitration is here. He is holding a conference this afternoon with the Federation committee at the Inn. As yet he has not conferred with Supt. Sneddon.

Harron Orchestra will close the season's dancing at Millant hall by an informal hop, Tuesday evening, May 13th.

A Chunk of Necessity.

Ice used to be considered a luxury. Now it is a necessity. Some people think it extravagant. It is really an economy. You may be able to get along without it, but you would find things don't go right in the cookery unless you have ice always.

...FACTS ABOUT SPONGES...

To most people sponges are simply sponges, yet there are a score of varieties. Some little ones cost a good deal, some large ones cost a very little and are worth less. Some are full of lime; some are ruined by bleaching; some are too coarse; some too fine; some just right. We keep all kinds and sell them for just what they are and for what they are worth.

Death to the Workmen.

It was in an art store in Fifth avenue, and the dealer was showing gilded clocks and candelabra to a customer. Pointing to one particularly handsome set, he said, "That is worth \$3500." Pointing to another of similar pattern, but not so handsome, he said, "That is worth \$600."

"But the other one is better," said the customer.

"Well," said the dealer, "the chief value of this one (pointing to the \$600 affair) is in the gilding. It was gilded by the mercury process which is now forbidden by law almost everywhere. The other one was treated with the electroplating process."

"Well, it's handsome," said the customer. "Is it as durable? If it is, why should I pay \$250 more?"

"It is practically as durable, and it is handsome," said the dealer. "But you can duplicate it, and you can't duplicate the other. The mercury process of gilding was death to the workmen who engaged in it. They inhaled the fumes of the mercury, and in the end it killed them, and it wasn't long doing it, either."

"I'll take the mercury one," said the customer, "but the other is handsome."
